

How to use your ZENN Lube Shooter Step-by-Step Instructions:

1. Prepare the Shooter: If it has a cap, remove it. Ensure the plunger is pushed all the way in before starting.

2. Fill the Device: Dip the tip of the shooter into your bottle of lubricant and slowly pull back the plunger (stamp) to fill the barrel. Alternatively, some users prefer to pour lube into the barrel directly for less mess.

3. Insert: Gently insert the applicator into the desired area (anal or vaginal).

4. Apply: Push the plunger down to inject the lubricant.

5. Clean: After use, wash the device thoroughly with warm water and mild soap. The tube can be disassembled for deeper cleaning.

Tips for Usage:

- **Best Compatibility:** Pair with ZENN water-based or silicone-based lubricants.
- **Comfort & Hygiene:** It ensures even, mess-free coating to avoid discomfort. Do not share your applicator with others.
- **Safety:** Ensure the tip is inserted gently to avoid irritation.

Using the ZENN shooter prevents having to stop to re-apply, ensuring a comfortable and well-lubricated experience!
